## What is GLPhone

GLPhone is a VoIP phone service that operates over the internet rather than over physical telephone lines. It combines all the benefits of a traditional phone service with the cost saving and portability of VoIP technology.

## How to connect

## How it works

GLPhone is a VoIP telephone service which involves the transmission of voice over the internet. Because all communications are executed online, telephone calls are very cost effective and can be placed from anywhere that has an internet connection.

Analog Terminal Adaptor supporting up to two telephones with separate numbers based on SIP standards. Adaptor has a PC port to share the Internet connection. Provides high quality voice connection with ability to interface with RelayProxy.

## GLPhone at a glance

- Free calls between GLPhone members
- No contracts and commitments
- Mobility / portability
- No hidden fees
- 24/7 365 days live Customer Service support available in multiple languages
- Unified voice messaging, caller ID, call waiting, call ID block, conferencing and more
- Can replace your home phone

## Benefits

GLPhone is a Pay-as-You-Talk VoIP service. You can enjoy all of the features and benefits of VoIP – services are available worldwide and give consumers the ability to take control of their phone usage and most importantly, their payments.

### Group of Gold Line

The Group of Gold Line (GL) is a Canadian company specializing in the research, development, marketing and worldwide distribution of telecommunication solutions and technology products. Its portfolio ranges from telephony, web to print, digital printing, WebTV and educational technologies.

Founded in 1991, GL has evolved to become the largest provider of prepaid long distance products and services in North America, with over 300 million minutes of long distance calling per month. Its products are distributed in over 50 countries, with approximately 100,000 points of sale around the world.

GL's mission is to connect people around the world to what matters and bring them closer to their family, business, culture and languages through innovative, unique and competitive technology-based products and services.
