What is GLHomeLink

GLHomeLink is a unique and innovative Bluetooth® capable router that enables users to make and receive mobile calls through existing home phone handsets. GLHomeLink can work with or without a landline. This gives users the option of cancelling their home phone services and using GLHomeLink as the perfect alternative to save on expensive phone bills.

GLHomeLink also includes a rechargeable long distance calling component built into the device. This allows customers to place long distance calls directly from their home phone without the need to dial access or PIN numbers prior to destination number entry. To start using the service immediately, the GLHomeLink long distance service comes with \$10 worth of complimentary calling time credit.

How it works

Wireless Technology

GLHomeLink uses Bluetooth® wireless technology. It takes just a few minutes to set up and works right out of the box, without the need for any additional cables or adapters. Once paired, cell phones will automatically connect to the home/office phone system whenever it is within range.

Benefits

- Comfort and accessibility that comes with never having to run to answer your phone again! Instead, just use any of your home handsets!
- Enjoying full reception coverage at home without worrying about dead spots anymore.
- Saving money! You can choose to cancel your local phone service all together, saving an average of up to \$33/ month.
- Low prepaid long distance calling rates provided by the Group of Gold Line calling North America to anywhere in the world for as low as \$0.02 per minute no contracts, commitments, or monthly bills!
- Plus a bonus of \$10 worth of free long distance minutes.

GLHomeLink at a glance

- Enjoy long telephone calls while charging your cell phone.
- No more running to answer your cell phone - use any home handset!
- Say goodbye to cell phone dead spots at home.
- Take advantage of your cell phone evening and weekend minutes at home.
- Integrates with existing landline or VoIP adapter.
- Call waiting between calls.
- Caller ID displayed on home phones (as supported by your cell phone).

Group of Gold Line

The Group of Gold Line (GL) is a Canadian company specializing in the research, development, marketing and worldwide distribution of telecommunication solutions and technology products. Its portfolio ranges from telephony, web to print, digital printing, WebTV and educational technologies.

Founded in 1991, GL has evolved to become the largest provider of prepaid long distance products and services in North America, with over 300 million minutes of long distance calling per month. Its products are distributed in over 50 countries, with approximately 100,000 points of sale around the world.

GL's mission is to connect people around the world to what matters and bring them closer to their family, business, culture and languages through innovative, unique and competitive technology-based products and services.
